Why do people keep believing they have made the right choice, even with the disastrous result staring them in the face? And how can you be sure you're making the right

decision--without the benefit of hindsight? Sydney Finkelstein, Jo Whitehead, and Andrew Campbell show how the usually beneficial processes of the human mind can become traps when we face big decisions. The authors show how the shortcuts our brains have learned to take over millennia of evolution can derail our decision making. Think Again offers a powerful model for making better decisions, describing the key red flags to watch for and detailing the decision-making safeguards we need. Using examples from business, politics, and history, Think Again deconstructs bad decisions, as they unfolded in real time, to show how you can avoid the same fate. Smart Choices John S. Hammond 2015-07-21
Become confident in your choices. Where should I live? Is it time to get a new job? Which job candidate should I hire? What business strategy should I pursue? We spend the majority of our lives making decisions, both big and

small. Yet, even though our success is largely determined by the choices that we make, very few of us are equipped with useful decision-making skills. Because of this, we often approach our choices tentatively, or even fearfully, and avoid giving them the time and thought required to put our best foot forward. In *Smart Choices*, John Hammond, Ralph Keeney, and Howard Raiffa—experts with over 100 years of experience resolving complex decision problems—offer a proven, straightforward, and flexible roadmap for making better and more impactful decisions, and offer the tools to achieve your goals in every aspect of your life. Their step-by-step, divide-and conquer approach will teach you how to:

- Evaluate your plans
- Break your

potential decision into its key elements • Identify the key drivers that are most relevant to your goals • Apply systematic thinking • Use the right information to make the smartest choice Smart Choices doesn't tell you what to decide; it tells you how. As you routinely use the process, you'll become more confident in your ability to make decisions at work and at home. And, more importantly, by applying its time-tested methods, you'll make better decisions going forward. Be proactive. Don't wait until a decision is forced on you—or made for you. Seek out decisions that advance your long-term goals, values, and beliefs. Take charge of your life by making Smart Choices a lifetime habit.

The Science of Selling

David Hoffeld 2016-11-15

The Revolutionary Sales Approach Scientifically Proven to Dramatically Improve Your Sales and Business Success

Blending cutting-edge research in social psychology,

neuroscience, and behavioral economics,

The Science of Selling shows you how to align the way you sell with

how our brains naturally form buying decisions, dramatically increasing your ability to earn

more sales. Unlike other sales books, which primarily rely on

anecdotal evidence and unproven advice, Hoffeld's evidence-based approach connects the dots between science and situations salespeople and business leaders face every day to help you consistently succeed, including proven ways to:

- Engage buyers' emotions to increase their receptiveness to you and your ideas
- Ask questions that line up with how the brain discloses information
- Lock in the incremental commitments that lead to a sale
- Create positive influence and reduce the sway of competitors
- Discover the underlying causes of objections and neutralize them
- Guide buyers through the necessary mental steps to make purchasing decisions

Packed with advice and anecdotes, *The Science of Selling* is an essential resource for anyone looking to

succeed in today's cutthroat selling environment, advance their business goals, or boost their ability to influence others.
