**Effective Vocabulary Instruction – Keys to
Literacy**

Direct instruction means teaching specific words,
such as pre-teaching vocabulary prior to reading
a selection. It is estimated that students can be
taught explicitly some 400 words per year in
school (Beck, McKeown & n Kucan, 2002).

Another example of direct instruction involves the
analysis of word roots and affixes (suffixes and
prefixes).

A force for school improvement – Michael Fullan

instructional efforts with direct attention to teaching and learning. However, the conversations district leaders had about standards were rarely connected to changes in instruction. (Cross City Campaign, 2005, p 69, my italics) The report continues as follows. At the school level, finding teachers who understood the implications of standards for
